

GATEWAY FORUM

I (THOU) ROBOT: GOD, MORALS AND MACHINE BEINGS

Artificial Intelligence, Robots, Cyborgs... the breakneck speed of technological advancements brings a mix of fear, wonder, excitement, & uncertainty. Where is it all going - and what are the implications for humanity? Where is God in all this? Is there a theological perspective?

Come and find out!

This talk will explore the ethical and theological issues arising from AI and machine beings. For more info: gtstheology.org

- 9th January 2026, 7-9pm
- Christchurch, Abbeydale: Heron Way, Abbeydale, GL4 5EQ
- Register in advance: info@gtstheology.org
- Cost: by donation

Rev. Dr. Stephen Goundrey-Smith

Stephen is a scientific theologian and ethicist, an ordained CofE minister and a trained hospital pharmacist. He holds a PhD for his work on transhumanist ethics biomedical technologies.
